 Construction: _____
 Unit #: _____
 Drawing #: _____

INDOOR UNIT FEATURES:

- 
MOTION SENSOR (OPTIONAL)
 Intelligent motion sensing technology enables auto ON/OFF, auto fan, and auto temperature adjustments based on movement and occupancy of the room.
- 
WIFI ADAPTER (OPTIONAL)
 An optional WiFi adapter can be installed to enable system control via iOS or Android smart device for up to 64 indoor units.
- 
FAN SPEED
 6 Selectable fan speeds.
- 
REMOTE CONTROL
 Indoor units can be controlled with wireless remote controller featuring an LCD display.
- 
AUTO RESTART
 The automatic restart function sets the indoor units to automatically restart and resume previous settings in the event of a power outage.
- 
COMPACT SIZE
 Compact indoor units can be conveniently transported and installed, even in small spaces.
- 
SELF-DIAGNOSIS
 CHV indoor units use the self-diagnosis function to monitor and analyze malfunctions. Error codes are displayed on LED displays, remote controllers, or PCB boards as a general troubleshooting guide.

- 
SILENT OPERATION
 CHV units create minimal sound pressure during operation.
- 
SWING LOUVER
 CHV ceiling cassettes and wall mounts include louvers which swing automatically for even air distribution.
- 
ADJUSTABLE LOUVER POSITION
 CHV indoor units feature adjustable louvers for more precise directional air flow.
- 
EASY MAINTENANCE
 CHV indoor units provide convenient access to filters and other important components for easy upkeep and increased longevity.
- 
STANDARD FILTER INCLUDED
 A washable, long-life filter is included as a standard part.
- 
LOW TEMPERATURE COOLING
 The target temperature of indoor units can be set as low as 60°F.
- 
AUTO FAN SPEED
 Fan speed rotation is automatically controlled to achieve optimum efficiency and comfort.

Optional Accessories:

- Receiver kit - SPWRK-V02
- Drain Pump - SPDP-DHP76/96
- Wireless controller - SPRC-101
- Motion Sensor - SPHNS-S01E
- Wired controller - SPWT-A01

Model name			CHV-15WTU
Cooling capacity	Nominal capacity	Btu/h	15,400
	Input power	kW	0.03
Heating capacity	Nominal capacity	Btu/h	17,100
	Input power	kW	0.03
Power supply		V, Ph, Hz	208/230V, 1Ph, 60Hz
Max/Min power supply		V	253/188
Electrical parameters	MCA	A	0.56
	MOP	A	15
Dimensions (H x W x D)		in	12 13/32 x 37 51/64 x 9 1/16
Connection pipe diameter	Low pressure gas pipe	in	1/2"
	Liquid pipe	in	3/8"
Condensate drain		in	5/8"
Refrigerant			R410A
Net weight		lbs	29
Air flow rate		CFM	570/529/500/470/429/405
Sound pressure level		dB(A)	38/37/36/32/31/29

NOTES:

1. The nominal cooling capacity is the combined capacity of the Cooper&Hunter standard split system.

Cooling operation conditions: Indoor air inlet temperature: 80°F DB 66°F WB, Outdoor air inlet temperature: 95°F DB.

Heating operation conditions: Indoor air inlet temperature: 68°F DB, Outdoor air inlet temperature: 44°F DB, 42°F WB., Piping length: 24.6ft., Piping lift: 0ft.

2. The sound pressure level is based on the following conditions: 4.9ft beneath the unit with discharge Duct(6.5ft.) and Return Duct(3.3ft.). Voltage of the power source for the indoor fan motor is 208V. The above data was measured in an anechoic chamber so that reflected sound should be taken into consideration in the field.

3. The data for external pressure *1) indicates standard pressure setting values when a filter is not used.

4. The above air flow rate and noise level are tested with AC 208V power supply and without filter screen.

Unit: inch (mm)
